Real–Time Collaboration

Communicate key information with all clients.

Client Rooms enable brokers to send instant messages or post comments to clients at any time and at any place.

Client Rooms provide active and passive ways of communication between broker and client. ▶▶

Assets Manager

Organize contracts, documents, pictures and other files with the Assets Manager.

Easily add and remove files from a Client Room with our intuitive and simple interface.

Managing files has never been this easy. ▶▶

Private Web Page

Publish a secure, private web page where only the broker and client have access.

Once logged into Client Rooms, all property information, documents, and marketing tools are centrally located for easy access. ▶▶
